PROFILE SUMMARY

Creative and tech-focused BSIT student with hands-on experience in social media content creation, e-commerce thumbnails, AI-assisted videos, and graphic design for beauty brands and local events. Comfortable combining design to build clean visuals, carousels, and short-form videos.

EDUCATION & CERTIFICATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
PHINMA Cagayan De Oro College | 2023-Present

- Specializing in Digital Arts
- Certificate of Recognition – Most Promising Project

WORK EXPERIENCE

NasBeauty Remote
Part-Time Social Media & AI Content Creator Project-Based

- Created TikTok and Instagram content, including short-form videos, reels, carousel posts, and promotional graphics for beauty products.
- Produced AI-assisted videos, product visuals, and ad concepts for social media and online marketing campaigns.
- Designed product-focused carousels that highlighted benefits, usage, and brand visuals in a clear, scroll-stopping way.
- Helped maintain a consistent visual style across social media posts, AI ads, and product content.

Student Assistant
Information Technology Services Office (ITS)

- Assisted students with creating, setting up, and managing official institutional email accounts.
- Processed Student Information System (SIS) password resets and resolved account access issues.
- Provided technical support and basic account troubleshooting to ensure seamless access to school platforms.

PHINMA COC Center for Student Development and Leadership (CSDL)

- Guided students and parents through the scholarship renewal and student loan application processes.
- Supported administrative operations, event logistics, and coordination for university-wide leadership programs and student activities.
- Facilitated student engagement and assisted in executing school events hosted by the department.

PROJECTS

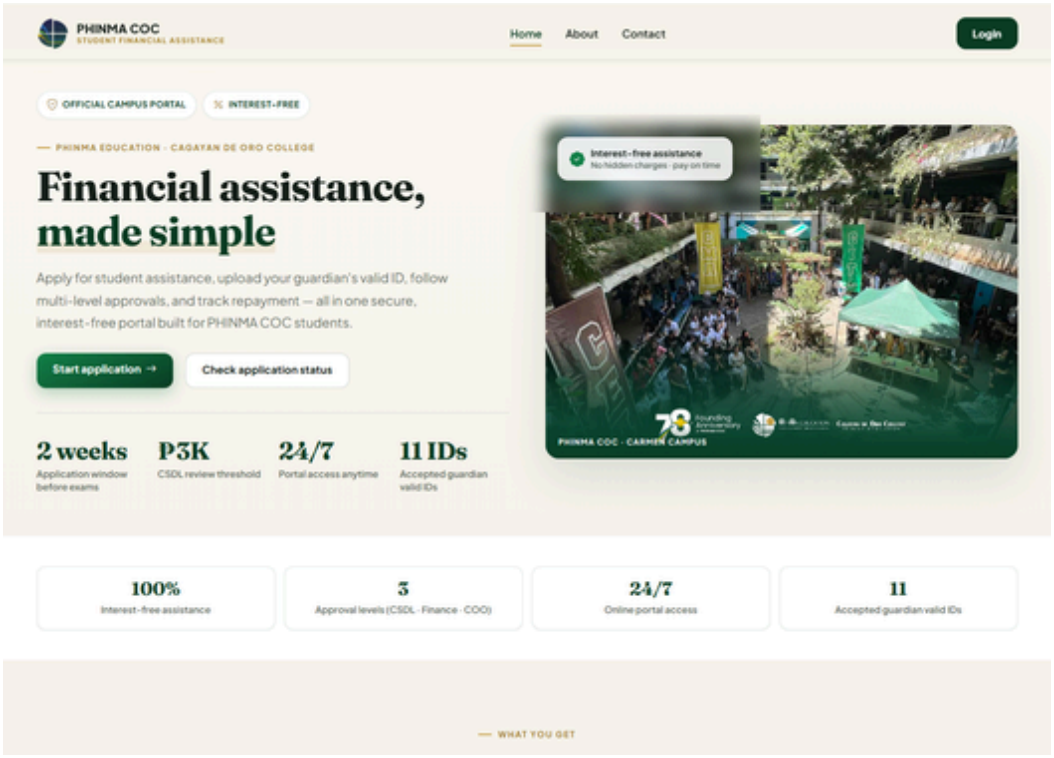

Student Financial Assistance System (SFAS) Student Loan System

- Helped develop a system for managing student financial assistance and loan-related information.
- Focused on organizing student records, improving workflow, and making the system easier to use for school related processes.

GRACYMEI A. TURTOSA

INFORMATION TECHNOLOGY

Student Financial Assistance System (SFAS)

- Contributed to the development of a Student Loan System designed to streamline financial aid and loan management. Key focus areas included optimizing student records organization, improving procedural workflows and enhancing overall user experience for school-related processes.
